No. 829/91-07

Dated. 12-5-15

Ens.

Sir,

Introductory.

In continuation of my letter No. 722/91-07 of the 24th ultimo forwarding the Annual Returns of the Jails and Lock-ups in the State for the Calendar year 1914, I have the honor to submit the following report on their administration.

Inspector General.

2. I was in charge of the Department throughout the year.

Classes of Prisons.

3. The number of Jails and Lock-ups remained the same as in the previous years, Viz, 1 Central Jail, 1 District Jail, 1 Special Lock-up, 6 District Lock-ups and 71 Taluk Lock-ups.

Buildings and accommodation.

4. The two Jails in the Province

are reported to be in rickety condition. So far back as June 1908, Government sent a consolidated list of improvements to the Bangalore Central Jail, to the Chief Engineer in Mysore with instructions to carry them out gradually by providing - 40 or 50 thousand rupees annually for the purpose. Only few of these improvements have been carried out. The wants of the Mysore Jail have been reported to the - Public Works Department with the request that they may be attended to early as the building is, as a whole, in an unsafe condition.

5. Certain improvements to the District Lock-ups at Chikmagalur and Chittal droog were in progress. Inadequacy of accommodation for separating the various - classes of prisoners was reported from various Lock-ups. Recently a list of them has been furnished to the Public Works Department and Government and orders are awaited.

PART I. Judicial statistics.

General Summary.

6. The year under report opened with a population of 1174 prisoners of all classes; 10464 prisoners were received and 10289 were discharged leaving a balance of 1349 prisoners in confinement at the - close of the year. The prisoners received and discharged and those that remained were more numerous than in 1913 and their daily average number consequently rose from 1234.91 to 1251.06.

Civil Prisoners.

7. There had remained 12 prisoners of this class at the beginning of the yea 147 were admitted and 145 discharged whic left a balance of 14 at the end of the - year. Their daily average was 9.29 agains 7.18 in the year previous.

Convict Population.

Statement No. I.

8. The number of convicts at the com mencement of the year was 926 of whom 907 had been direct committals and the remain ing 19 convicts in transit. Among the fo mer class, fresh admissions numbered 2539 re-admissions from places of trial and - transfers from one Jail to another 91 -- making a total of 3537 of these-

35 were transferred to the Vellore Cen- tral Jail,

56 were transferred from one Jail to an other,

28 to places of trial,

239 were released on appeal,

1862 do on expiry of sentence,

191 under Remission Rules,

6 under special orders of Government,

2 were transferred to Lunatic Asylum,

5 escaped,

1 executed,

15 died,

leaving a balance of 1097 at the close of the year. Among convicts in transit whose number stood at 19 at the commencement , freshadmissions numbered 795 making a - total of 814. Of these-

761 were actually transferred,

21 were released on appeal,

16 on expiry of sentence,

1 escaped and

2 died

which left a balance of 13 at the end of the year. The daily average number of convicts was 995.38 against 850.22 in the year 1913 or an increase of 145.16.

Sexes of convicts.

9. Of the 2539 direct committals 2403 or 94.64 per cent were males and the remaining 136 or 5.36 % were females. These percentages are almost the same as in the year previo during which 94.68 % of admissions were males and 5.32 % were females.

Religion, Age, Education and occupationof convicts.

Statement No. II.

10. Classified according to religion 143 or 5.63 % of the total number admitt were Christians,

335 or 13.19 % were Mahamadans,

2058 or 81.06 % were Hindus, and

3 or .12 % were Jains

against 4.94 % of Christians, 13.98 % of Mahamadans, 80.74 % Hindus and .34 % Jains among those admitted in the year 1913. The ratios of Christians and Hindus have increased by .69 and .32 % respectively while those of Mahamadans and Jains have decreased by .79 and .22 % respectively as compared with the previous year.

Age and periods.

11. The number of convicts under 15 years of age admitted during the year was 49 or 1.93 %; between 16 and 40 years 2057 or 81.02 %; between 40 and 60 years 411 or 16.19 %; and above 60 years 22 or .86 %. The ratio of youthful offenders has de-- creased while the ratios of those in the

other

(14

other age periods have increased.

Education.

12. 476 or 18.75 % of the total number admitted were able to read and write, 12 or .47 % were able to read only and the remaining 2051 or 80.78 % were illiterate. Similar percentages of those admitted in the previous year were 17.74, 1.56 and 80.70 respectively thus showing that the ratio of literates has increased.

Previous occupation.

13. Of the total number admitted, 2403 were males among whom-

99 or 4.12 % were Government or Municipal servants,
50 or 2.08 % were professional persons,
420 or 17.48 % were persons in personal service,
1065 or 44.32 % were agriculturists,
157 or 6.53 % were persons engaged in commerce or trade,
168 or 6.99 % were employed in mechanical Arts etc, and
444 or 18.48 % were miscellaneous persons not classed otherwise.

As usual agriculturists formed the bulk of admissions, their percentage in the year previous being 48.13 of the total number of males admitted. Next in order @@ come miscellaneous persons not classed otherwise and personal servants.

Civil condition of females.

14. Among females whose number was 136, the married numbered 57, or 41.91 % unmarried 33 or 24.27 %, widows 42 or 30.88 % and prostitutes 4 or 2.94 %.

(15)

As in the year previous the married - women ~~have~~ have preponderated over others.

Length and nature of sentence.

Statement No. III.

15. Of the 2539 convicts admitted direct from courts, no fewer than 1218 had not more than one month's imprisonment to undergo. The proportion of short periods of imprisonment is rather excessive, at any rate it is larger than in ~~es~~ some - other Provinces in British India. There were 15 lifers and 13 convicts condemned to death admitted into Jails against the same numbers of each admitted in the year previous. Classified accoring to nature of sentence-

251 or 9.89 % had been sentenced to - simple imprisonment,

2273 or 89.52 % had been sentenced to rigorous imprisonment,

9 or .35 % to rigorous imprisonment with solitary confinement,

5 or .20 % to rigorous imprisonment with whipping and

1 or .04 % to whipping only.

Nature of Offences.

Statement B.

16. Theft including theft in a building and by servants outnumber ~~all~~ all other causes of imprisonment the convictions thereunder being 1313 or 51.67 % of the total admissions. Convictions under Special, Local and Municipal Laws have decreased being 219 or 8.62 % against 250 or 10.55 % of admissions in the previous Year.

Recommittals and Habituals.

17. 355 or 13.98 % of the total number of convicts admitted in the year

IV

had been previously convicted. 7 Youthful male offenders and 9 female convicts are included inthe above number. No record of previous convictions usually accompanies a convict when he is brought into prison. The Jail authorities it is who trace them out or the convicts themselves confess to their having been in Jail when they know that their colleagus within will divulge it.

Escapes & re-captures.

18. Six convicts escaped during the year all from outside the Jail or Lock-up in which they were confined. Four of these were re-captured within the year and suitably dealt with along with the guards -- whose negligence contributed to their escape. Two among those who had escaped in the previous ten years were also recaptured Of these, one was Eranna alias Puttasami who along with his brother Dodda Hyda had been condemned to suffer death in the - year 1905 and had on the 5th July of that year, effected their escapes in broad daylight after murdering the sentry over them. Both of them had eluded justice for a long time and it is gratifying that these double murderers have been brought to the gallows one after the other. Dodda Hyda was re-- captured in the year 1910 and Eranna in - the year under report.

Offences and Punishments.

19. The total number of recorded offences has risen from 172 in 1913 to 304 in the year under report. This is a healthy sign as showing that -

that greater care was taken to detect, punish and record offences. 303 of these offences were dealt with by the Superintendents themselves under the Prisons Act & the remaining one which consisted of a convict- a habitual offender by name - Kormer Venkata- having assaulted a Head Warder, was tried by a Magistrate. He was convicted and sentenced to one year's hard labor for it. Of the offences tried by - Superintendents of Jails 65 or 21 % have been visited with corporal punishments - against 12 or 6 % of such punishments in the year 1913.

Convict Officers.
Statement No. VII.

20. Among a daily average of 995.38 convicts, 114 or 11.45 % were employed as Prison Officers against 12.58 % of the - daily average number of convicts employed in the previous year. The number of recorded offences against Prison Officers increased from 7 in 1913 to 61 in the - year under report in common with increased offences recorded against the convict population as a whole.

Diet Scale.
Statement No. VIII.

21. The Vegetarian dietary sanctioned in Government Order No. J. 2598/Pris.45-10-5 dated the 13th March 1911 was in - force in the case of all Indian convicts under sentence of hard labor in both the Jails. In the case of others Viz, Europeans and East Indians, Simple and undertrial prisoners confined in Jails and Prisoners

of

of all classes in Lock-ups, the mixed dietary prescribed in the Jail Manual was in force.

Undertrial Prisoners.

Statement No.XVIII.

22. There remained 236 prisoners of this class at the beginning of the year. Fresh admissions numbered 6892 against 64[illegible] in the previous year making a total of 71[illegible] Of these-

4504 were acquitted,
1844 convicted and sentenced,
549 transferred,
5 escaped and
1 died

which left a balance of 225 at the end of the year. The numbers of admissions and acquittals were far in excess of those in the year previous, but as their average period of detention was shorter Viz,13.61 days againat 20.32 in 1913, their daily average decreased from 377.51 to 246.39. This decrease has been more than counter-balanced by the increase in the daily average of convicts observed in para 8 abo with the result that the daily average of all classes of priscners rose to about 16 in excess of the daily average in the pre vious year.

Mark System.

Statement No. C.

23. The number of convicts released under the operation of Mark Rules of 189[illegible] was 191 against 184 in the previous year. The number of those who came under the o-peration of both the mark rules of 1899 ° Ticket-of-Leave Rules of 1892 and were - released under special orders of Covern-

(19

Government was 6 the same as in the year 1913. The maximum remission earned was 1500 days by a life-term convict released from the Bangalore Central Jail. The maximum gratuity was Rs 49-9-0 earned by another life-term convict of the same Jail. The average gratuity earned by released convicts was Rs 1-5-4 against Rs 1-7-3 in the year before.

Part II. Financial.

Gross expenditure.

24. Excluding the outlay on repairs to buildings, the gross expenditure of the year was Rs 113529-13-10 against Rs 103635-10-10 in the year previous. Nearly all heads of expenditure show an increase, those of "Establishment" and "Dietary charges" showing it more markedly than -- others. The increase of about Rs 920/- under "Establishment charges" is due to disbursement of grain allowances to officials and to the increased rate of pay drawn by the Superintendent, Bangalore Central Jail. Under "Dietary charges" the increase over the previous year's expenditure was more than Rs 7000/- and has been attributed to the dearer rates at which ration articles were purchased in the year. As a result of this, the cost per head rose from Rs 83-14-9 in 1913 to Rs 90-11-11 in the year under report.

Employment of convicts.

Statement No. XI.

25. Among a daily average of 995.38 convicts, 886.12 or 89 % of them were available for work, the rest being either prisoners undergoing simple imprisonment, sick, convalasent or infirm or those who could not be employed on any work for other reasons. Of the convicts available for labor 12.63 % were employed as prison Officers, 4.40 as prison servants and - 25.61 % on manufactures against 14.35 , 4.15 and 27.23 % of the daily average of convicts available for work employed respectively as such in the year previous.

Cash earnings of prisoners.

Statement No. XII.

26. The result of the employment of convicts was that a sum of Rs 15224-5-6 was realized as revenue against Rs 12768-9-8 realized as revenue in the year previous. The amount includes Rs 1943-15-0 received in Court Fee stamps for testing measures in the Bangalore Central Jail and also Rs 3125-6-0 the value of convic labor employed at the Palace and Dewan's Quarters in Mysore and Bangalore calculated at two annas per head per day and accredited only in the Administrative accounts of the Department. The ~~as~~ average cash earnings per head of working convic rose slightly from Rs 17-0-9 in 1913 to 17-~~12~~-11.

Net cost of Prisoners.

Statement No. XIII.

26. The gross cost of maintenance - was, as stated in para 24,Rs 113529-13-1(Deducting from this the total cash earni of prisoners Viz, Rs 15224-5-6 (para 25)

the net cost of maintenance of prisoners in the Jails and Lock-ups of the State was Rs 98305-8-4 or Rs 78-9-3 per head against a net cost of Rs 90927-1-2 or Rs 73-10-1 per head in the preceding year. The dearness of provisions has been, as already explained, the chief cause in - bringing about this increased cost per head

Industries in Jails.

Bangalore Central Jail.

27. The outlay on industries carried on in the Central Jail at Bangalore amounted to Rs 18726-13-2 and the amount realized thereon was Rs 18919-6-4 or only Rs 192-9-2 in excess. The new branch of making and testing measures has shown a net profit of Rs 1752-1-8 against an outlay of only Rs 200-6-4. The other branch of industries which have worked with profit are (1) Cloth weaving (2) Dhoby and (3) Gunny Departments, the total profit accrued in them being Rs 1277-1-7. The other industries in this Jail, Viz, the Smithy, the Tailoring, the Carpentry, the Carpet, the rattan and the cumbly have all worked with a loss to Government, ~~the~~ the amount realized by the sale proceeds of articles made in them being Rs 2836-10-1 less than the outlay actually incurred in purchasing Raw materials consumed.

Central Jail Garden.

28. The amount spent for purchase of seeds, implements required for the Central Jail garden was Rs 223/. Against this there was a return of Rs 355/- in cash and vegetables valued at Rs 1261/- in kind which

the prisoners consumed.

Industries in the Mysore Jail.

29. The industries carried on in the Mysore Jail involved an outlay of Rs 779-4-7 and are stated to have yielded in return a sum of Rs 927-11-9 in cash and Rs 428-8-8 by book transfer. The carpet, carpentry, cloth weaving, coir and - smithy industries have worked with profit while the rattan and the cumbly concerns showed losses. The garden in this Jail showed a revenue of Rs 103-8-8 against an outlay of Rs 35-0-7. On the whole, the Industries in this Jail are on sounder footing than those in the Bangalore Central Jail.

30. I cannot say that the various industries carried on in Jail have been worked satisfactorily. Apart from the disciplinary and educational value of these industries, they must have shown some profit just as those carried on in the British India Jails are doing but they have not done so. Various proposals for their improvements have been made by the Superintendents of Jails and they are engaging my attention. But in the first place the necessity for prescribing revised forms and Registers and accounts so that the - loss or gain to Government from each Industry may be definitely gauged is very great and I suggest that Government will depute an account expert to examine the existing system of accounts and suggest improvemen

(23

Part III. Vital Statistics.

Sickness and mortality.

Statement No,XIV.

355?

431?

31. The aggregate number of prisoners admitted into Hospital was 245 against - 355 in the previous year or a ratio of - 283.75 per mille of average strength against a ratio of 349.01 per mille of average strength of the previous year. This decline in the number of in-patients has been followed by an incfease in the number of deaths being 18 against 14 in the preceding year. 12 of these deaths occurre in the Bangalore Central Jail and the Superintendent reports that the increased mortality in his Jail was brought about by a gang of Woddars admitted into his Jail in August last most of whom, being addicted to drinking, were in a broken down state of health and easily succumbed to diseases. ~~Of the~~ Of the 18 deaths, 17 occurred among convicts and the remaining one due to Pnuemonia occurred among under-trials.

32. The number of convicts treated for the various diseases declined all over. The admissions for malarial fevers were only 53 against 183 in the previous year. Of 17 deaths among convicts -

1 was due to Dysentery,
3 to Malarial fevers,
1 to Pneumonia,
2 to Diarrhoea
and the remaining 10 due to other general

general diseases enumerated below-

Diseases of the heart.....2

Syphilitic ulcers.....1

Chronic Periostitis.....1

Old age and Debility.....2

Dropsy.....3

Drowning.....1

Mortality according to length of sentence. Statement No. XVI.

33. Of the 17 deaths among convicts, 6 occurred among those whose sentence did not exceed 6 months, one among those undergoing a sentence not exceeding one year, 4 among those whose sentence did not exceed three years: one among those whose sentence did not exceed 7 years, and the remaining five among those whose sentence was above 7 years.

Mortality according to length of time passed in the Jail. Statement No. XVII.

34. Of the 17 convicts who died in the year, 9 died within 6 months after their admission, 3 within one year, 2 within two years, 2 within 7 years and the remaining one after 7 years. As usual the mortality per mille during the first six months is higher than in the subsequent headings of this table. It is possible that in the early stages of imprisonment, convicts suffer from depression of mind brought about by their conviction and are easily carried away by diseases which those who have recovered from such depression by remaining in Jail for a longer period can resist.

Accommodation in Jails.

Statement No. A.

35. The Central Jail at Bangalore became overcrowded in the latter half of the year and the congestion was relieved by drafting 50 prisoners to the District Jail at Mysore. No overcrowding was reported from any other Jail or Lock-up in the year.

Condition of convicts Discharged.

Statement No. B.

36. The number of convicts discharged during the year was 3241. Of these 1664 convicts discharged from Lock-ups were, as usual, not weighed either at the time of their admission or discharge. Of the remaining 1577 convicts who were discharged from Jails after weighment, 725 had gained weight, 621 had lost weight and the remaining 231 had neither gained nor lost it.

Drainage & Conservancy.

37. No change was made in these directions. The dry earth system is in force in the Jails and in the Lock-ups. Male prisoners are adopting the Hebrew method of evacuation.

Diet.

38. Articles of diet were, as usual, obtained from contractors at rates previously agreed upon in the case of Jails and from respectable local merchants at the prevailing market rates in the case of Lock-ups in general.

Water Supply.

39. No complaint was received regarding water supply from any Lock-up or Jail except from the Central Jail at Bangalore whereat prisoners have enough of

of water for their use, but quarters assigned to the Matron and Deputy Jailor have only a meagre supply. A proposal for giving an independent pipe-connection to the latter has been recently approved and sent to the Public Works Department for execution.

Clothing & Bedding of prisoners.

40. Clothing and bedding were issued to prisoners according to seasonal requirements and the rules in force.

Religious & Moral instructions.

41. As usual, a Christian Baptist, a Mahomedan Moulvi and a Swamji of the City Sri. Ramakrishna Mutt visited the Bangalore Central Jail once a week and spoke to prisoners on moral and religious topics. Religious books were freely allowed inside the Jail, those who were unable to read getting them read for them by others who can do so, after lock-up. A member of the local Theosophical Society and a Mahomedan Khaji paid weekly visits to the Mysore Jail and held moral discourses with the prisoners confined. The Superintendents report that these arrangements are appreciated by prisoners.

Personnel.(Jails)

42. Mr. P.Palpu was in general and Medical charge of the Central Jail at Bangalore from the beginning of the year up to end of 22nd October 1914 when Mr. T.S.Nanjappa relieved him of both the duties and remained in charge till the end of the year. Mr. Mahomed Usmon was, throughout the year, the Superintendent

and Medical Officer of the Jail at Mysore.

Concluding Remarks.

On the whole, the health, discipline and conduct of prisoners in Jails and Lock-ups were good.

I have the honor to be,

Sir,

Your most obedient servant,

Inspector General of Prisons.

Proceedings of the Government of
His Highness the Maharaja
of Mysore.

Read:-

Letter No 829/91-07 dated 12th May 1915 from the Inspector General of Prisons in Mysore forwarding a report on - the administration of Jails and Lockups in the State during the calendar year -- 1914.

Signed by Mr. G Sreenivasa Iyer.

Order thereon No:- J 2072-83.

Dated, Bangalore the 30th November 1915

During the year under report the -- number of admissions into jails and -- lockups was 10464 as against 9696 in --- the previous year. Including the number at the end of 1913, the total came up to 11638, of whom 10289 were discharged. Government observe with satisfaction that there has been a considerable decline in the number admitted into jails during the year, of prisoners under the age of 15, the percentage of such admissions having fallen from 3.13 to 1.93.

2. With regard to the undertrial prisoners the daily average was 129.3 less than the previous year's figure and it is satisfactory that the average --- eriod of detention fell from 20.32 to 2.61 days.

The Inspector General reports that

when a convict is brought to prison no record of previous conviction usually accompanies and that the jail authorities trace him out or the convict himself confesses to his having been in jail when he fears that other prisoners might divulge it. The Chief Court is requested to issue necessary instructions to Magistrates to note, wherever possible, on every warrant whether a prisoner has undergone a previous conviction.

4. The number of offences committed by convicts rose from 172 to 304, and the increase is attributed to the greater care taken in detecting and punishing offences.

5. Government agree with the Inspector General of Prisons in his observation that the proportion of short periods of imprisonment is high, and consider that such terms of imprisonment are more demoralising than deterrant in effect. In this connection, the attention of all Magistrates is again drawn to the remarks in paragraph 2 of the last year's review.

6. The expenditure has increased considerably, each prisoner costing about Rs 7 more than in the previous year. The increase is attributed to the higher rates at which the ration articles were purchased during the year.

7. The Inspector General of Prisons is requested to take very early and effective steps to place the industries on a more economical and satisfactory basis a separate reference being made on the point dealt with in paragraph 31 of the report.

8. The Chief Engineer is requested to see that necessary repairs and improvements to the Jails are executed as early as practicable.

REPORT ON THE ADMINISTRATION OF JAILS AND LOCK-UPS IN THE STATE DURING THE CALENDAR YEAR 1914,

WITH THE GOVERNMENT REVIEW THEREON.

No. J. 2072-83—Pris. 45-14-4, dated 30th November 1915.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 829—91-07, dated 12th May 1915, from the Inspector-General of Prisons in Mysore, forwarding a report on the Administration of Jails and Lock-ups in the State during the calendar year 1914.

Order No. J. 2072-83—Pris. 45-14-4, dated 30th November 1915.

During the year under report the number of admissions into Jails and Lock-ups was 10,464 as against 9,696 in the previous year. Including the number at the end of 1913, the total came up to 11,638, of whom 10,289 were discharged. Government observe with satisfaction that there has been a considerable decline in the number, admitted into Jails during the year, of prisoners under the age of 15, the percentage of such admissions having fallen from 3·13 to 1·93.

2. With regard to the under-trial prisoners the daily average was 129·3 less than the previous year's figure and it is satisfactory that the average period of detention fell from 20·32 to 12·61 days.

3. The Inspector-General reports that when a convict is brought to prison no record of previous conviction usually accompanies and that the Jail authorities trace him out or the convict himself confesses to his having been in Jail when he fears that other prisoners might divulge it. The Chief Court is requested to issue necessary instructions to Magistrates to note, wherever possible, on every warrant whether a prisoner has undergone a previous conviction.

4. The number of offences committed by convicts rose from 172 to 304, and the increase is attributed to the greater care taken in detecting and punishing offences.

5. Government agree with the Inspector-General of Prisons in his observation that the proportion of short periods of imprisonment is high, and consider that such terms of imprisonment are more demoralising than deterrant in effect. In this connection, the attention of all Magistrates is again drawn to the remarks in paragraph 2 of the last year's review.

6. The expenditure has increased considerably, each prisoner costing about Rs. 7 more than in the previous year. The increase is attributed to the higher rates at which the ration articles were purchased during the year.

7. The Inspector-General of Prisons is requested to take very early and effective steps to place the industries on a more economical and satisfactory basis, a separate reference being made on the point dealt within paragraph 31 of the report.

8. The Chief Engineer is requested to see that necessary repairs and improvements to the Jails are executed as early as practicable.

No. 829/91-07

OFFICE OF THE INSPECTOR-GENERAL OF PRISONS IN MYSORE,

Dated Bangalore, 12th May 1915.

FROM

RAO BAHADUR T. V. ARUMUGAM MUDALIAR, ESQ., M.B., C.M.,
Inspector-General of Prisons in Mysore, Bangalore.

TO

D. M. NARASINGA RAO, ESQ., B.A., B.L.,
Secretary to the Government of Mysore,
General and Revenue Departments, Bangalore.

SIR,

Introductory.—In continuation of my letter No. 722—91-07 of the 24th ultimo, forwarding the annual returns of the Jails and Lock-ups in the State for the calendar year 1914, I have the honor to submit the following report on their administration.

2. *Inspector-General.*—I was in charge of the department throughout the year.

3. "The number of Jails and Lock-ups remained the same as in the previous year and they are as follows:—

1. Central Jail—Bangalore.
1. District Jail—Mysore.
6. District Lock-ups at the Head Quarters of Districts, except Mysore and Bangalore.
1. Special Lock-up at Kolar Gold Fields.
71. Taluk Lock-ups.

In the report for 1912 by some mistake the special Lock-up in the Kolar Gold Fields and the two Lock-ups at Sringeri and Yelandur were left out and the total number of Lock-ups was shown as 75 only instead of 78."

4. *Buildings and Accommodation.*—The two Jails in the Province are reported to be in rickety conditions. So far back as June 1908, Government sent a consolidated list of improvements to the Bangalore Central Jail, to the Chief Engineer in Mysore, with instructions to carry them out gradually by providing 40 or 50 thousand rupees annually for the purpose. Only few of these improvements have been carried out. The wants of the Mysore Jail have been reported to the Public Works Department with the request that they may be attended to early as the building is, as a whole, in an unsafe condition.

5. Certain improvements to the District Lock-ups at Chikmagalur and Chitaldrug were in progress. Inadequacy of accommodation for separating the various classes of prisoners was reported from various lock-ups. Recently a list of them has been furnished to the Public Works Department and Government, and orders are awaited.

PART I—JUDICIAL STATISTICS.

6. *General Summary.*—The year under report opened with a population of 1,174 prisoners of all classes; 10,464 prisoners were received and 10,289 were discharged, leaving a balance of 1,349 prisoners in confinement at the close of the year. The prisoners received and discharged and those that remained were more numerous than in 1913, and their daily average number consequently rose from 1234·91 to 1251·06.

7. *Civil Prisoners.*—There had remained 12 prisoners of this class at the beginning of the year. 147 were admitted and 145 discharged which left a balance of 14 at the end of the year. Their daily average was 9·29 against 7·18 in the year previous.

8. *Convict Population, Statement I.*—The number of convicts at the commencement of the year was 926, of whom 907 had been direct committals and the remaining 19 convicts in transit. Among the former class, fresh admissions numbered 2,539, re-admissions from

places of trial and transfers from one Jail to another 91, making a total of 3,537. Of these 35 were transferred to the Vellore Central Jail, 56 were transferred from one jail to other, 28 to places of trial, 239 were released on appeal, 1,862 on expiry of sentence, 191 under Remission Rules, 6 under special orders of Government, 2 were transferred to Lunatic Asylum, 5 escaped, 1 executed, 15 died, leaving a balance of 1,097 at the close of the year. Among convicts in transit whose number stood at 19 at the commencement, fresh admissions numbered 795 making a total of 814. Of these, 761 were actually transferred, 21 were released on appeal, 16 on expiry of sentence, 1 escaped and 2 died, which left a balance of 13 at the end of the year. The daily average number of convicts was 995·38 against 850·22 in the year 1913, or an increase of 145·16.

9. *Sexes of Convicts.*—Of the 2,539 direct committals, 2,403 or 94·64 per cent were males and the remaining 136 or 5·36 per cent females. These percentages are almost the same as in the year previous during which 94·68 per cent of admissions were males and 5·32 per cent were females.

10. *Religion, Age, Education and Occupation of Convicts, Statement No. II.*—Classified according to religion, 143 or 5·63 per cent of the total number admitted were Christians, 335 or 13·19 per cent were Mahomedans, 2,058 or 81·06 per cent were Hindus and 3 or ·12 per cent were Jains, against 4·94 per cent of Christians, 13·98 per cent of Mahomedans, 80·74 per cent Hindus and ·34 per cent Jains among those admitted in the year 1913. The ratios of Christians and Hindus have increased by ·69 and ·32 per cent respectively, while those of Mahomedans and Jains have decreased by ·79 and ·22 per cent, respectively, as compared with the previous year.

11. *Age-periods.*—The number of convicts under 15 years of age admitted during the year was 49 or 1·93 per cent, between 16 and 40 years, 2,057 or 81·02 per cent, between 40 and 60 years, 411 or 16·19 per cent and above 60 years 22 or ·86 per cent. The ratio of youthful offenders has decreased, while the ratios of those in the other age-periods have increased.

12. *Education.*—476 or 18·75 per cent of the total number admitted were able to read and write, 12 or ·47 per cent were able to read only, and the remaining 2,051 or 80·78 per cent were illiterate. Similar percentages of those admitted in the previous year were 17·74, 1·56 and 80·70 respectively thus showing that the ratio of literates has increased.

13. *Previous Occupation.*—Of the total number admitted, 2,403 were males among whom—

·99 or 4·12 per cent were Government or Municipal servants,
50 or 2·08 per cent were professional persons,
420 or 17·48 per cent were persons in personal service,
1,065 or 44·32 per cent were agriculturists,
157 or 6·53 per cent were persons engaged in commerce or trade,
168 or 6·99 per cent were employed in mechanical Arts, etc., and
444 or 18·48 per cent were miscellaneous persons not classed otherwise.

As usual, agriculturists formed the bulk of admissions, their percentage in the year previous being 48·13 of the total number of males admitted. Next in order come miscellaneous persons not classed otherwise and personal servants.

14. *Civil Condition of Females.*—Among females whose number was 136, the married numbered 57, or 41·91 per cent, unmarried 33 or 24·27 per cent, widows 42 or 30·88 per cent prostitutes 4 or 2·94 per cent. As in the year previous, the married women have preponderated over others.

15. *Length and Nature of Sentence, Statement No. III.*—Of the 2,539 convicts admitted direct from courts, no fewer than 1,218 had not more than one month's imprisonment to undergo. The proportion of short periods of imprisonment is rather excessive, at any rate it is larger than in some other Provinces in British India. There were 15 lifers and 13 convicts condemned to death admitted into Jails against the same numbers of each admitted

in the year previous. Classified according to nature of sentence: —

251 or 2·89 per cent had been sentenced to simple imprisonment,
2,273 or 89·52 per cent had been sentenced to rigorous imprisonment,
9 or ·35 per cent to rigorous imprisonment with solitary confinement,
5 or ·20 per cent to rigorous imprisonment with whipping, and
1 or ·04 per cent to whipping only.

16. *Nature of Offences.*—Theft including theft in a building and by servants outnumber all other causes of imprisonment the convictions thereunder being 1,313 or 51·67 per cent of the total admissions. Convictions under Special, Local and Municipal Laws have decreased being 219 or 8·62 per cent against 250 or 10·55 per cent of admissions in the previous year.

17. *Recommittals and Habituals.*—355 or 13·98 per cent of the total number of convicts admitted in the year had been previously convicted. Seven youthful male offenders and nine female convicts are included in the above number. No record of previous convictions usually accompanies a convict when he is brought into prison. The Jail authorities it is who trace them out or the convicts themselves confess to their having been in Jail when they know that their colleagues within will divulge it.

18. *Escapes and captures.*—Six convicts escaped during the year, all from outside the Jail or Lock-up in which they were confined. Four of these were recaptured within the year and suitably dealt with along with the guards whose negligence contributed to their escape. Two among those who had escaped in the previous ten years were also recaptured. Of these, one was Eranna *alias* Puttasami who, along with his brother Dodda Hyda, had been condemned to suffer death in the year 1905 and had, on the 5th July of that year, effected their escapes in broad daylight after murdering the sentry over them. Both of them had eluded justice for a long time and it is gratifying that these double murderers have been brought to the gallows one after the other. Dodda Hyda was recaptured in the year 1910 and Eranna in the year under report.

19. *Offences and Punishments.*—The total number of recorded offences has risen from 172 in 1913 to 304 in the year under report. This is a healthy sign as showing that greater care was taken to detect, punish and record offences. 303 of these offences were delt with by the Superintendents themselves under the Prisons Act, and the remaining one which consisted of a convict, a habitual offender, by name Kormer Venkata, having assaulted a Head Warder, was tried by a Magistrate. He was convicted and sentenced to one year's hard labor for it. Of the offences tried by Superintendents of Jails 65 or 21 per cent have been visited with corporal punishments against 12 or 6 per cent of such punishments in the year 1913.

20. *Convict Officers, Statement No. VII.*—Among daily average of 995·38 convicts, 114 or 11·45 per cent were employed as Prison Officers against 12·58 per cent of the daily average number of convicts employed in the previous year. The number of recorded offences against Prison Officers increased from 7 in 1913 to 61 in the year under report in common with increased offences recorded against the convict population as a whole.

21. *Diet Scale, Statement No. VIII.*—The vegetarian dietary sanctioned in Government Order No. J. 2598—Pris. 45-10-5, dated the 13th March 1911, was in force in the case of all Indian convicts under sentence of hard labor in both the Jails. In the case of others, *viz.*, Europeans and East Indians, Simple and Undertrial prisoners confined in Jails and Prisoners of all classes in lock-ups, the mixed dietary prescribed in the Jail Manual was in force.

22. *Undertrial Prisoners, Statement No. XVIII.*—There remained 236 prisoners of this class at the beginning of the year. Fresh admissions numbered 6,892 against 6,498 in the previous year, making a total of 7,128. Of these—

4,504 were acquitted,
1,844 convicted and sentenced,
549 transferred,
5 escaped, and
1 died,

which left a balance of 225 at the end of the year. The numbers of admissions and acquittals were far in excess of those in the year previous, but as their average period of detention was shorter, *viz.*, 12·61 days against 20·32 in 1913, their daily average decreased from 377·51 to 246·39. This decrease has been more than counterbalanced by the increase in the daily average of convicts observed in para 8 above with the result that the daily average of all classes of prisoners rose to about 16 in excess of the daily average in the previous year.

23. *Mark System, Statement No. C.*—The number of convicts released under the operation of Mark Rules of 1899 was 191 against 184 in the previous year. The number of those who came under the operation of both the Mark Rules of 1899 and Ticket-of-Leave Rules of 1892 and were released under special orders of Government was 6, the same as in the year 1913. The maximum remission earned was 1,500 days by a life-term convict released from the Bangalore Central Jail. The maximum gratuity was Rs. 49-9-0 earned by another life-term convict of the same Jail. The average gratuity earned by released convicts was Rs. 1-5-4 against Rs. 1-7-3 in the year before.

Part II—Financial.

24. *Gross expenditure.*—Excluding the outlay on repairs to buildings, the gross expenditure of the year was Rs. 1,13,529-13-10 against Rs. 1,03,635-10-10 in the year previous. Nearly all heads of expenditure show an increase, those of "Establishment" and "Dietary charges" showing it more markedly than others. The increase of about Rs. 920 under "Establishment charges" is due to disbursement of grain allowances to officials and to the increased rate of pay drawn by the Superintendent, Bangalore Central Jail. Under "Dietary charges" the increase over the previous year's expenditure was more than Rs. 7,000 and has been attributed to the dearer rates at which ration articles were purchased in the year. As a result of this, the cost per head rose from Rs. 83-14-9 in 1913 to Rs. 90-11-11 in the year under report.

25. *Employment of Convicts, Statement No. XI.*—Among a daily average of 995·38 convicts, 886·12 or 89 per cent of them were available for work, the rest being either prisoners undergoing simple imprisonment, sick, convalescent or infirm or those who could not be employed on any work for other reasons. Of the convicts available for labor 12·63 per cent were employed as prison officers, 4·40 as prison servants and 25·61 per cent on manufactures against 14·35, 4·15 and 27·23 per cent of the daily average of convicts available for work employed respectively as such in the year previous.

26. *Cash Earnings of Prisoners, Statement No. XII.*—The result of the employment of convicts was that a sum of Rs. 15,224-5-6 was realized as revenue against Rs. 12,708-9-8 realized in the year previous. The amount includes Rs. 1,943-15-0 received in Court Fee stamps for testing measures in the Bangalore Central Jail and also Rs. 3,125-6-0 the value of convict labor employed at the Palace and Dewan's Quarters in Mysore and Bangalore calculated at two annas per head, per day and accredited only in the administrative accounts of the department. The average cash earnings per head of working convicts rose slightly from Rs. 17-0-9 in 1913 to Rs. 17-2-11.

27. *Net Cost of Prisoners, Statement No. XIII.*—The gross cost of maintenance was, as stated in para 24, Rs. 1,13,529-13-10. Deducting from this the total cash earnings of prisoners, *viz.*, Rs. 15,224-5-6 (para 26) the net cost of maintenance of prisoners in the Jails and Lock-ups of the State was Rs. 98,305-8-4 or Rs. 78-9-3 per head against a net cost of Rs. 90,927-1-2 or Rs. 73-10-1 per head in the preceding year. The dearness of provisions has been, as already explained, the chief cause in bringing about this increased cost per head.

28. *Industries in Jails, Bangalore Central Jail.*—The outlay on industries carried on in the Central Jail at Bangalore amounted to Rs. 18,726-13-2 and the amount realized thereon was Rs. 18,919-6-4 or only Rs. 192-9-2 in excess. The new branch of making and testing measures has shown a net profit of Rs. 1,752-1-8 against an outlay of only Rs. 200-6-4. The other branches of industries which have worked with profit are (1) Cloth weaving, (2) Dhoby and (3) Gunny Departments, the total profit accrued in them being Rs. 1,277-1-7. The other industries in this Jail, *viz.*, the Smithy, the Tailoring, the Carpentry, the Carpet,

the Rattan and the Cumbly have all worked with a loss to Government, the amount realized by the sale proceeds of articles made in them being Rs. 2,836-10-1 less than the outlay actually incurred in purchasing raw materials consumed.

29. *Central Jail Garden.*—The amount spent for purchase of seeds and implements required for the Central Jail garden was Rs. 223. Against this there was a return of Rs. 355 in cash and vegetables valued at Rs. 1,261 in kind which the prisoners consumed.

30. *Industries in the Mysore Jail.*—The industries carried on in the Mysore Jail involved an outlay of Rs. 779-4-7 and are stated to have yielded in return a sum of Rs. 927-11-9 in cash and Rs. 428-8-8 by book transfer. The carpet, carpentry, cloth weaving, coir and smithy industries have worked with profit, while the rattan and the cumbly concerns showed losses. The garden in this Jail showed a revenue of Rs. 103-8-8 against an outlay of Rs. 35-0-7. On the whole, the industries in this Jail are on sounder footing than those in the Bangalore Central Jail.

31. I cannot say that the various industries carried on in Jail have been worked satisfactorily. Apart from the disciplinary and educational value of these industries, they must have shown some profit just as those carried on in the British Indian Jails are doing, but they have not done so. Various proposals for their improvements have been made by the Superintendents of Jails and they are engaging my attention. But in the first place the necessity for prescribing revised forms and registers and accounts so that the loss or gain to Government from each Industry may be definitely gauged is very great and I solicit that Government will depute an account expert to examine the existing system of accounts and suggest improvements.

Part III—Vital Statistics.

32. *Sickness and Mortality, Statement No. XIV.*—The aggregate number of prisoners admitted into Hospital was 355 against 431 in the previous year or a ratio of 283·75 per mille of average strength against a ratio of 349·01 per mille of average strength of the previous year. This decline in the number of in-patients has been followed by an increase in the number of deaths being 18 against 14 in the preceding year. 12 of these deaths occurred in the Bangalore Central Jail and the Superintendent reports that the increased mortality in his Jail was brought about by a gang of Woddars admitted into his Jail in August last most of whom, being addicted to drinking, were in a broken down state of health and easily succumbed to diseases. Of the 18 deaths, 17 occurred among convicts and the remaining one due to pneumonia occurred among undertrials.

33. *Sickness and Mortality among Convicts, Statement No. XV.*—The number of convicts treated for the various diseases declined all over. The admissions for malarial fevers were only 53 against 183 in the previous year. Of 17 deaths among convicts

1 was due to dysentery,
3 to malarial fevers,
1 to pneumonia,
2 to diarrhœa,

and the remaining 10 due to other general diseases enumerated below—

Diseases of the heart	2
Syphilitic ulcers	1
Chronic periostitis	1
Old age and debility	2
Dropsy	3
Drowning	1

34. *Mortality according to Length of Sentence, Statement No. XVI.*—Of the 17 deaths among convicts, 6 occurred among those whose sentence did not exceed six months, 1 among those undergoing a sentence not exceeding one year, 4 among those whose sentence did not exceed three years, 1 among those whose sentence did not exceed seven years, and the remaining 5 among those whose sentence was above seven years.

35. *Mortality according to Length of Time passed in the Jail, Statement XVII.*—Of the 17 convicts who died in the year, 9 died within six months after their admission, 3 within one year, 2 within two years, 2 within seven years and the remaining 1 after seven years. As usual, the mortality per mille during the first six months is higher than in the subsequent headings of this table. It is possible that, in the early stages of imprisonment, convicts suffer from depression of mind brought about by their conviction and are easily carried away by diseases which those who have recovered from such depression by remaining in Jail for a longer period can resist.

36. *Accommodation in Jails, Statement No. A.*—The Cental Jail at Bangalore became overcrowded in the latter half of the year and the congestion was relieved by drafting 50 prisoners to the District Jail at Mysore. No overcrowding was reported from any other Jail or Lock-up in the year.

37. *Condition of Convicts discharged, Statement No. B.*—The number of convicts discharged during the year was 3,241. Of these 1,664 convicts discharged from Lock-ups were, as usual, not weighed either at the time of their admission or discharge. Of the remaining 1,577 convicts who were discharged from Jails after weighment, 725 had gained weight, 621 had lost weight and the remaining 231 had neither gained nor lost it.

38. *Drainage and Conservancy.*—No change was made in these directions. The dry earth system is in force in the Jails and in the Lok-ups. Male prisoners are adopting the Hebrew method of evacuation.

39. *Diet.*—Articles of diet were, as usual, obtained from contractors at rates previously agreed upon in the case of Jails and from respectable local merchants at the prevailing market rates in the case of Lock-ups in general.

40. *Water-supply.*—No complaint was received regarding water-supply from any Lock-up or Jail, except from the Central Jail at Bangalore whereat prisoners have enough of water for their use, but quarters assigned to the Matron and Deputy Jailor have only a meagre supply. A proposal for giving an independent pipe-connection to the latter has been recently approved and sent to the Public Works Department for execution.

41. *Clothing and Bedding of Prisoners.*—Clothing and bedding were issued to prisoners according to seasonal requirements and the rules in force.

42. *Religious and Moral Instructions.*—As usual, a Christian Baptist, a Mahomedan Moulvi and a Swamiji of the City Sri Ramakrishna Mutt visited the Bangalore Central Jail once a week and spoke to prisoners on moral and religious topics. Religious books were allowed inside the Jail, those who were unable to read getting them read for them by others who can do so, after Lock-up. A member of the local Theosophical Society and a Mahomedan Khaji paid weekly visits to the Mysore Jail and held moral discourses with the prisoners confined. The Superintendents report that these arrangements are appreciated by prisoners.

43. *Personnel (Jails).*—Mr. P. Palpu was in General and Medical charge of the Central Jail at Bangalore from the beginning of the year up to end of 22nd October 1914, when Mr. T. S. Nanjappa relieved him of both the duties and remained in charge till the end of the year. Mr. Mahomed Usmon was, throughout the year, the Superintendent and Medical Officer of the Jail at Mysore.

44. *Concluding remarks.*—On the whole, the health, discipline and conduct of prisoners in Jails and Lock-ups were good.

I have the honor to be,

Sir,

Your most obedient servant,

T. V. ARUMUGAM,

Inspector-General of Prisons,

Statement showing the distribution of the prisoners of all classes confined
